Dealers and Operators in Real Estate in Montclair, N. J.

We own several tracts of land in what has come to be known as "The Montclairs," having selected them with reference to their special advantages for purposes of immediate building, of profitable development or of wise investment. A long residence and successful real estate experience in Montclair enables us accurately to judge of present worth and to forecast the future of realty values with reasonable certainty. Moreover, we have made a careful study of what the public wants and how to supply it, particularly in the way of building property, both lots and plots.

It is a fact beyond controversy, and evident to the most casual observer, that the northern half of Montclair, embracing the entire first and fifth wards, and extending from the popular "Park Street Section" to Upper Montclair and Montclair Heights (where is located the handsome new State Normal School), will continue to be the scene of unequaled building activity during the next few years.

Montclair is rapidly becoming a good sized city, having already a population of over 25,000, chiefly represented by homes of the better class. It is notable, indeed pre-eminent, among the suburbs of New York, Jersey City and Newark, for its high elevation (300 to 500 feet above tidewater), its social and educational advantages, its wealth and enterprise, its fine system of roads, and for the efficiency and honesty of its local government.

The greatest development of Montclair is and must increasingly be where is to be found available land at reasonable prices, convenient to transit facilities. In this respect the south or older part of the town now offers very limited opportunities to the home seeker. Fortunately a large part of the choicest section of Montclair remains comparatively open for settlement; and, as is usually the case under similar circumstances, the later development gives promise of the best general average of desirability.

Home seekers and investors are rapidly coming to an appreciation of the significance of these incontrovertible facts and are securing their building sites and speculative properties while prices are low and the opportunities for choice are many. But delays are costly, in view of rapidly advancing values. Hence it is manifestly the part of wisdom to act promptly.

We are specialists in this particular field and are therefore in a position to serve you well and to save you money. Terms made to suit all reasonable requirements. Propositions to exchange property given careful and liberal consideration.

Whether you want to Buy or Sell Montclair Real Estate don't fail to consult
